

Display Settings in Windows 10

Description: To change the display settings on your Surface Pro or Computer, please follow the steps below.

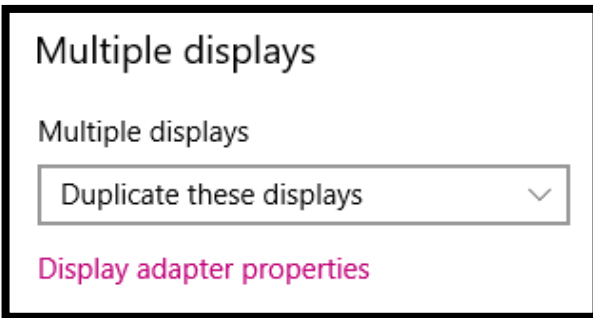

Directions for Use:

1. Right click on your desktop and select “Display Settings”

2. Scroll down and find the “Multiple displays” category

Option 1: From the drop down menu select “duplicate these displays” to see the exact same thing on both screens

Option 2: From the drop down menu select “Extend these displays” to be able to extend your workspace
